

WATERBRICK® Containers:

Multiple Uses, Multiple Solutions

Creative Storage Applications

One of many uses....

WaterBricks can be cross-stacked up to 4 feet high and take up less space than standard 55 gallon drums.

Some examples of creative storage applications using WaterBricks include:

- Bedrooms – closets, underneath beds, in the corner of the room, behind headboards
- Kitchen – above stove, above refrigerator, under the sink, space above cabinets
- Living and Family Rooms – replace coffee table, between the walls and the furniture
- Closets – bedrooms, hall, guest rooms, linen, utility

"Makes water storage easy."

Review by Jane - 1/6/11

"This is a great product for storing water at home. They are easy to carry and I can hide them under my kid's beds. Since I will be using them for drinking water, I like the fact that I can keep them right inside my house staying clean rather than outside getting dirty. They are really convenient."
